Ieuan

I am currently studying Triple BTEC Sport at Treorchy Comprehensive School. I decided to return to school as they have brilliant facilities. There are lots of sporting opportunities for me to take part in like the Football Academy and I am able to use the weights room and gym during my free lessons. It's been a smooth transition from Year 11 into the Sixth Form and I know the staff will be there to help me reach my goals.

Molly

I am currently studying A Level PE, Medical Science and Criminology. I decided to return to the Sixth Form in Treorchy as they offer a wide range of new subjects which I have found very interesting and exciting. The school also offer the Netball Academy which was perfect for me as I am able to continue with my training.

Ben

I decided to stay on in the Sixth Form because they offered all the subjects that I wanted to continue to study. The Sixth Form also have a great and friendly pastoral team and it has made the transition into the Sixth Form very easy. I would like to be a zoologist in the future, so I am currently studying Biology, Chemistry and Mathematics. I already know it has been the right choice for me as I have settled into my studies well.

Holly

I have chosen to study RE, English Literature, Welsh and Psychology at Treorchy Comprehensive School Sixth Form as the courses were perfect for me. The Sixth Form at Treorchy has provided me with stability and support. During my free time there's plenty to do and there are numerous ways to get involved in school life and help younger students. In the future, I would like to go to university to study Creative Writing.

Tyler

I am currently studying Media Studies, Design Technology and ICT. I decided to return to the Sixth Form because it's local to me and it's familiar. I was pleased with the range of subjects available, which made the decision to return an easy one. Through the school, I have been able to participate in a number of community projects which has been great. I'm unsure what to do in the future but for now I am enjoying being in the Sixth Form and progressing with the subjects that really interest me.

Nell

I am currently studying Psychology, Biology, Physics and Welsh. I returned to the Sixth Form in Treorchy because the school offers the subjects I am interested in and I wanted to continue to study the Welsh language through the Fast Track programme. In the future, I plan to study Biomedical Science at university.

Keisha

I have chosen to study Double BTEC Sport and Health and Social Care in the Sixth Form in Treorchy. I find these subjects interesting, and I would like to study them at university in the future. Treorchy Comprehensive offers many opportunities to take part in activities outside the classroom and this is one of the reasons I decided to return. I was excited to return to the Sixth Form to work with staff that I have built relationships with over the years and for this reason I found the transition to be an easy one.

Macey

I am currently studying Biology, Criminology and Psychology A Level at Treorchy Comprehensive School despite doing my GCSEs in a different school where these subjects weren't available to me. I have settled well in school and am looking forward to extracurricular activities and getting to know the staff and students. I would like to go on to study Biological Sciences in university.

Calandra

I am currently studying Biology, Criminology and Psychology in order to pursue a career in Forensics in the future. I chose to study at Treorchy because the school is local to me and the staff are friendly, and are always ready to help.

Ellise

I am currently studying A Level Biology, Chemistry and PE. I'm glad I made the decision to return to the Sixth Form as I feel comfortable here and it's been exciting to get started with my new courses. The Sixth Form has given me a glimpse of what it may be like in university to study subjects which interest me in a new environment.

Wendy

I am currently studying Geography and Business in the Sixth Form. I made the decision to return to school as they offered all the subjects I was keen to continue with after my GCSE's. They have excellent teachers here and I'm hoping to go to university when I complete my A Levels.

Lois

I chose to study Biology, PE and Psychology in the Sixth Form. I also am a member of the Netball Academy. I decided to return to school because the Sixth Form have their own designated area for us to study and relax in between lessons. So far, my studies are going well and I would like to go to university in the future to study Sports Psychology.
